

TENTH GRADE

GOALS

Spiritual

In all of our School of Rhetoric courses, athletics, fine arts, and student life events, we aspire to see students know who they are in Christ and be willing and able to have an impact in any culture by embracing and exhibiting their faith. Through intentional discourse and thoughtful faith-integration into all core subjects, students grow in their knowledge and love of God. Their loves begin to be ordered as wisdom and virtue are cultivated. We want students to grow in personal responsibility, while resisting self-reliance, to possess a servant's heart, to engage in civil discourse, and to lead a joyous, courageous life of passion and purpose.

Academic

A study of medieval history and literature brings about many great discussions. Discussions help students to love what they ought to love as they see wisdom and virtue embodied in stories. Students continue to refine their skills in rhetoric in both oral and written form as they work toward their Senior year when they present and defend a 20-minute thesis.

Social/Emotional

We desire to see our students love well. This means that they must love the right things. We focus on growing in them a love for five things. First and centrally, they must love God. Out of this flows a love of others. The final three are the love of truth, the love of learning, and the love of life.

CLASS TRIP & HOUSE SYSTEM

College Visit Trip

Over the course of two days, Sophomores will visit three or four Texas colleges of very different styles in an attempt to show them a variety of options and to help them begin to consider what they might be looking for in a university.

House System

The Veritas Academy School of Rhetoric utilizes a house system, begun in English schools centuries ago. Our 9-12th graders are divided into four houses with students from all four grade levels in each house. The house system is an on-going competition within the school that builds community, breaks down cliques, provides every student an instant place of belonging, and is lots of fun! Houses compete in intramural sports and games on school days, earn points for correct uniform wear and helpfulness and participate in various activities as a group, all looking to win the House Cup on the last day of the school year.

Grade Level Capacity ~50

Class Sections 3

Students per Class 16-17

Student to Teacher Ratio 16:1

SCHOOL OF RHETORIC OVERVIEW

Rhetoric Stage

With minds full of knowledge and the ability to logically organize that knowledge into meaningful arguments, students in the rhetoric stage of classical education are prepared to focus on winsome and effective expression, both in written and spoken form.

Parent Involvement

The parent's role in the School of Rhetoric can be easily overlooked because the students are quite independent. Thoughtful dinner table conversations help students process what they are learning and provide opportunities for parents to influence the growth of wisdom and virtue in their children. Help with organization and time management are also important as students develop these life skills.

School of Rhetoric Traditions

Special School of Rhetoric traditions include a weekly assembly, monthly Chapel, week-long celebration and dance for Homecoming, Bonhoeffire, Stag dance, School of Rhetoric retreat, Defender Pretender, Prom, and weekly intramural/ house competitions.

Community Connections

Opportunities for School of Rhetoric students to connect to the entire community include New Student Orientation, Fall Fest, Daddy-Daughter Dance, and more. Additionally, there are numerous student clubs within the School of Rhetoric, providing ample opportunities for students to connect with one another.

CORE CLASSES

HUMANITIES	Though taught by different teachers, the history and literature courses follow the same timeline focusing on medieval times. Students are able to simultaneously experience the story and the literature from each time period and geographic location. Students write frequent, short papers as well as a few larger process papers as they begin to add style in addition to solid structure to their papers and presentations.
MATH	Most Tenth Grade students take either Geometry or Algebra II. These are foundational courses for all higher level mathematics as well as success on college placement exams.
SCIENCE	Though all science courses at Veritas have a focus on hands-on laboratory experience, Tenth Grade Chemistry may have the most. The abstract concepts become concrete as they come to life in laboratory exercises. Students continue to hone their ability to present their results well through the process of writing formal lab reports.
FOREIGN LANGUAGES	All students must take at least one year of Latin, then may choose to continue their Latin studies or pursue studies in Spanish or American Sign Language. There is an emphasis on being immersed in the language, so before they know it, students will find themselves in a course conducted entirely in the foreign language.
LEADERSHIP	While all of our courses aim to grow students in accordance with our spiritual goals, the leadership classes are solely focused there. Though right information is important, merely telling students the truth will not produce these goals. In an attempt to inspire and form the affections of our students, the leadership classes use Scripture and literature to drive discussions about theology, hermeneutics, apologetics, worldview, ethics, and leadership.
ELECTIVES	Students are offered a wide variety of elective choices, designed to expose them to potential future occupations or hobbies to be enjoyed. Examples are Computer Science, Archery, Painting, Cooking, Vocal Ensemble, Forensic Science, Band, and Video Production.

DAILY SCHEDULE 8:55AM – 3:55PM

Students are on campus five days a week 8:55am-3:55pm with some classes meeting twice a week for 90 minutes and others meeting three days a week for 60 minutes each, thus following a true university schedule. Though they are on campus five days per week, students are only in class about 20 hours per week giving them a lot of time on campus to complete homework.

SCHOOL AT HOME VARIES PER STUDENT

School of Rhetoric students are on campus five days a week, so they are not spending time at home with parents as co-teachers. Depending on the individual student and his/her course load, some time working at home will be required after school hours.

ACADEMIC AND COLLEGE ADVISING

Our advising staff meets individually with each family and offers multiple training events throughout the school year to guide students through the selection of courses as well as college and career planning. The advising team remains updated and current on the latest trends related to college admissions.

TECHNOLOGY

Technology is utilized as an enhancement to education, but never as a distraction from it. Students are provided the skills necessary for success in this technology saturated world without putting technology at the center of education.

SCHOOL AND CLASSROOM COMMUNICATION

Communication with classroom teachers is mostly via email between the student and teacher, and all School of Rhetoric students receive a school email address for this purpose. Parents may choose to be included in academic emails as well, but Rhetoric students are expected to handle most of this communication on their own. A weekly School Memo is emailed to all parents, students, faculty, and staff to ensure everyone is aware of school-wide events and processes. Discipline or other classroom/school issues will be handled with the parent directly.
